Volume 171, Issue 1, January 2001

Cardiovascular

1 Circadian variation of plasma atrial natriuretic peptide, cortisol and fluid balance in the goat *U.-M. Kokkonen, P. Riskilä, M.-T. Roihankorpi and T. Soveri*

9 Nitrite-derived nitric oxide: a possible mediator of 'acidic-metabolic' vasodilation *A. Modin, H. Björne, M. Herulf, K. Alving, E. Weitzberg and J. O. N. Lundberg*

17 Rate-dependent electrical, contractile and restitution properties of isolated left ventricular myocytes in guinea-pig hypertrophy *P. Davey, S. Bryant and G. Hart*

29 Relative significance of the nitric oxide (NO)/cGMP pathway and K^+ channel activation in endothelium-dependent vasodilation in the femoral artery of developing piglets *R. Støen, K. Lossius, A. A. Persson and J. O. G. Karlsson*

Gastrointestinal

37 Effect of triglycerides with different fatty acid chain length on superior mesenteric artery blood flow *M. K. Vu, J. Berkhoudt, J. A. Van Oostayen, C. B. H. W. Lamers and A. A. M. Masclee*

43 Effects of hypovolaemia on acid-induced duodenal mucosal damage in the rat *B. Johansson, A. Cassellbrant, M. Holm, C. Von Bothmer, B. R. Johansson and L. Fändriks*

Exercise

51 Changes in electromyographic activity, muscle fibre and force production characteristics during heavy resistance/power strength training in middle-aged and older men and women *K. Häkkinen, W. J. Kraemer, R. U. Newton and M. Alen*

63 Near-infrared spectroscopy determined brain and muscle oxygenation during exercise with normal and resistive breathing *H. B. Nielsen, M. Boesen and N. H. Secher*

Muscle

71 *In situ* microdialysis of intramuscular prostaglandin and thromboxane in contracting skeletal muscle in humans *M. Karamouzis, H. Langberg, D. Skovgaard, J. Bülow, M. Kjær and B. Saltin*

77 Time-course changes in arteriolar and venular portions of capillary in young treadmill-trained rats *J. Suzuki, T. Kobayashi, T. Uruma and T. Koyama*

Nervous system

87 A subset of cingulate cortical neurones is specifically activated during alcohol-acquisition behaviour *Y. I. Alexandrov, Y. V. Grinchenko, D. G. Shevchenko, R. G. Averkin, V. N. Matz, S. Laukka and A. V. Korpusova*

Renal

99 Effects of losartan, prazosin and a vasopressin V_1- receptor antagonist on renal and femoral blood flow in conscious sheep *J. Ullman, S. Eriksson and M. Rundgren*

105 Endothelin synthesis and receptors in porcine kidney *A. Bäcker, D. Bokemeyer and H. J. Kramer*

113 Instructions to Authors

Volume 171, Issue 2, February 2001

Cardiovascular

117 Fluid balance in patients with chronic renal failure assessed with N-terminal proatrial natriuretic peptide, atrial natriuretic peptide and ultrasonography *G. Metry, C. Hall, B. Wikström, V. Källskog, P. Hansell and B. Danielson*

123 Relationship between ischaemic time and ischaemia/reperfusion injury in isolated Langendorff-perfused mouse hearts *Q.-D. Wang, A. Swärdh and P.-O. Sjöquist*

129 Energy-related metabolites during and after induced myocardial infarction with special emphasis on the reperfusion injury after extracorporeal circulation *V. Zemgulis, G. Ronquist, T. Bjerner, A. Henze, A. Waldenström, S. Thelin and G. Wikström*

Gastrointestinal

145 Regulation of K^+ transport in the rat distal colon via angiotensin II subtype receptors and K^+-pathways *L. Grahnquist, M. Chen, A. Gerasev, R. Aizman and G. Celsi*

153 Effect of cholera toxin on passive transepithelial transport of ^{51}Cr-ethylenediaminetetraacetic acid and ^{14}C-mannitol in rat jejunum *B.-M. Fihn, A. Sjöqvist and M. Jodal*

Metabolism

161 Reducing plasma free fatty acids by acipimox improves glucose tolerance in high-fat fed mice *B. Ahrén*

Muscle

169 Effect of creatine supplementation on creatine and glycogen content in rat skeletal muscle *B. Op.'t Eijnde, E. A. Richter, J. -C. Henquin, B. Kiens and P. Hespel*

177 Role of adenosine in exercise-induced human skeletal muscle vasodilatation *G. Rådegran and J. A. L. Calbet*

187 A single bout of eccentric exercise increases HSP27 and HSC/HSP70 in human skeletal muscle *H. S. Thompson, S. P. Scordilis, P. M. Clarkson and W. A. Lohrer*

Nervous system

195 Central AT_1 and AT_2 receptors mediate chronic intracerebroventricular angiotensin II-induced drinking in rats fed high sodium chloride diet from weaning *A. K. S. Camara and J. Osborn*

Volume 171, Issue 3, March 2001

Editorial

203 Acta Physiologica Scandinavica International Symposium on Skeletal Muscle Disease – Common Denominators *H. Westerblad and J. Lännergren*

Muscle inflammation

207 The physiology of inflammatory myopathies: an overview *I. E. Lundberg*

215 Immunological capabilities of skeletal muscle cells *K. Nagaraju*

225 Cytokines and oxidative signalling in skeletal muscle *M. B. Reid and Y.-P. Li*

233 Exercise-induced muscle damage and inflammation: fact or fiction? *C. Malm*

Non-insulin-dependent diabetes mellitus

241 The pathophysiology of type 2 diabetes mellitus: an overview *C.-G. Östenson*

249 Intracellular mechanisms underlying increases in glucose uptake in response to insulin or exercise in skeletal muscle *J. W. Ryder, A. V. Chibalin and J. R. Zierath*

259 The role of Ca^{2+} and calmodulin in insulin signalling in mammalian skeletal muscle *J. D. Bruton, A. Katz and H. Westerblad*

267 Relationship between muscle fibre composition, glucose transporter protein 4 and exercise training: possible consequences in non-insulin-dependent diabetes mellitus *J. R. Daugaard and E. A. Richter*

Skeletal muscle dysfunction associated with heart failure

277 Skeletal muscle disorders in heart failure *P. K. Lunde, I. Sjaastad, H.-M. Schiøtz Thorud and O. M. Sejersted*

295 Skeletal muscle training in chronic heart failure *M. F. Piepoli, A. C. Scott, A. Capucci and A. J. S. Coats*

305 Apoptosis and changes in contractile protein pattern in the skeletal muscle in heart failure *G. Vescovo, G. B. Ambrosio and L. Dalla Libera*

Exercise-induced muscle damage

311 Eccentric muscle damage: mechanisms of early reduction of force *D. G. Allen*

321 Eccentric exercise-induced injuries to contractile and cytoskeletal muscle fibre components *J. Fridén and R. L. Lieber*

327 Excitation-induced Ca^{2+} influx and skeletal muscle cell damage *H. Gissel and T. Clausen*

335 Muscular effects in late polio *K. Stibrant Sunnerhagen and G. Grimby*

Muscular dystrophies and other inherited muscle diseases

341 Desmin-related myopathies in mice and man *L. Carlsson and L.-E. Thornell*

349 Harnessing the potential of dystrophin-related proteins for ameliorating Duchenne's muscular dystrophy *T. O. B. Krag, M. Gyrd-Hansen and T. S. Khurana*

359 Muscle training in muscular dystrophies *T. Ansved*

367 Malignant hyperthermia and excitation–contraction coupling *W. Melzer and B. Dietze*

379 Autoimmunity against the ryanodine receptor in myasthenia gravis *G. O. Skeie, P. K. Lunde, O. M. Sejersted, A. Mygland, J. A. Aarli and N. E. Gilhus*

385 Mitochondrial myopathies *N.-G. Larsson and A. Oldfors*

Volume 171, Issue 4, April 2001

Cardiovascular

395 Regional cardiac expression and concentration of natriuretic peptides in patients with severe chronic heart failure *M. E. Hystad, O. R. Geiran, H. Attramadal, A. Spurkland, A. Vege, S. Simonsen and C. Hall*

405 Mechanisms of hypotensive effects of a posture change from seated to supine in humans *B. Pump, T. Kamo, A. Gabrielsen and P. Norsk*

413 Nitric oxide modulates acetylcholine-induced vasodilatation in the hepatic arterial vasculature of the dual-perfused rat liver *W. Yang, I. S. Benjamin and B. Alexander*

419 Effects of lactoferrin on rat dermal interstitial fluid pressure (P_{if}) and *in vitro* endothelial barrier function *K. S. Erga, E. Peen, S. Enestrom and R. K. Reed*

Endocrinology and metabolism

427 Insulin insensitivity and delayed transcapillary delivery of insulin in oophorectomized rats treated with testosterone *A. Holmäng, M. Niklasson, B. Rippe and P. Lönnroth*

439 Effect of force development on contraction induced glucose transport in fast twitch rat muscle *J. Ihlemann, T. Ploug and H. Galbo*

Gastrointestinal

445 Cell volume-induced changes in K^+ transport across the rat colon *R. Ribeiro, B. Heinke and M. Diener*

Muscle

459 Caffeine-induced depolarization in amphibian skeletal muscle fibres: role of Na^+/Ca^{2+} exchange and K^+ release *B. A. Kotsias and R. A. Venosa*

Rapid Communication

467 Infusion of vasopressin is associated with increased milk flow in the goat *K. Olsson, P. Arvelius and K. K. Olsson*
